Cilji in kompetence:

Učna enota prispeva predvsem k razvoju naslednjih splošnih in specifičnih kompetenc:

- analizo, sintezo in predvidevanje rešitev ter posledic na področju varstva okolja,
- evidentiranje in definiranje okoljskih problemov, analizo problemov ter pripravo strokovno utemeljenih rešitev,
- uporabo pridobljenega znanja v praksi,
- sposobnost razumevanja vseh vidikov presoja vplivov okolja vključno z zdravjem prebivalstva,
- razumevanje okoljske ekonomije in ekonomske politike ter finančnih vidikov upravljanja okolja,
- razumevanje pomena in oblik sodelovanja podjetij pri soodločanju o okoljskih zadevah.

Objectives and competences:

The learning unit mainly contributes to the development of the following general and specific competences:

- analysis, synthesis and prediction of solutions and consequences in the area of protection of environment,
- evidencing and defining of environmental problems, analysis of problems and preparation of professionally justified solutions,
- usage of collected knowledge in practice,
- ability to understand all aspects of judgement of impacts on environment including health of people,
- ability to value the nature and protocols for determination of status of natural value, at professional and procedural level,
- understanding of environmental economics and economic policy as well as financial aspects at management of environment,
- understanding of meaning and forms of organization collaboration at co-determination of environmental issues.

Predvideni študijski rezultati: Študent/študentka: <ul style="list-style-type: none"> • opiše položaj in vrednost okolja v proizvodnem procesu, • opredeljuje vlogo države in njenih institucij, ki usmerjajo in nadzorujejo podjetja pri organizaciji proizvodne in varstvu okolja, • pojasni odnos potrošnikov do varstva okolja in njihov pogled na okolju neprijazne proizvode podjetja, • našteje emisijske certifikate in določanje njihove vrednosti na trgu, • razvrsti finančne vire za financiranje okolju prijaznih investicij, • presoja investicijske projekte z vidika njihovega vpliva na okolje, • analizira/predvideva okoljske nesreče in meri finančne posledice. 	Intended learning outcomes: Students: <ul style="list-style-type: none"> • describe the position and value of the environment in production process, • define role of a country and its institutions, which direct and supervise companies at organisation of production and protection of environment, • explain perception of consumers to protection of environment and their view on environmental unfriendly products, • list emission certificates and determination of their price on the market, • classify financial sources for financing of environmental friendly investments, • judge investment projects from perspective of their impact on environment, • analyze and predict of environmental accidents and measurement of financial consequences. 			
Metode poučevanja in učenja: <ul style="list-style-type: none"> • <i>predavanja</i> z aktivno udeležbo študentov (razлага, diskusija, vprašanja, primeri, reševanje problemov), • <i>seminarske vaje</i>: priprava, predstavitev in uspešen zagovor seminarske naloge, portfolio (reševanje problemov, študije primera, kritično presojanje, diskusija, refleksija izkušenj, vrednotenje, projektno delo, timsko delo). 	Learning and teaching methods: <ul style="list-style-type: none"> • <i>lectures</i> with active student participation (explanation, discussion, questions, examples, problem solving), • <i>seminar tutorial</i>: preparation, presentation and a successful defence of a seminar paper, portfolio (problem solving, case studies, methods of critical thinking, discussion, reflection of experience, evaluation, project work, team work). 			
Načini ocenjevanja: <p>Načini:</p> <ul style="list-style-type: none"> • izpit • izdelava, predstavitev in zagovor seminarske naloge • aktivnost na predavanjih in seminarskih vajah <p>Ocenjevalna lestvica: ECTS.</p>	<p style="text-align: center;">Delež (v %) Weight (in %)</p> <table style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 33.33%; text-align: center;">50 %</td> <td style="width: 33.33%; text-align: center;">30 %</td> <td style="width: 33.33%; text-align: center;">20 %</td> </tr> </table> <p style="text-align: center;">Assessment:</p> <p>Types:</p> <ul style="list-style-type: none"> • exam • preparation, presentation and defence of the seminar paper • activity on lectures and seminar tutorial <p style="text-align: center;">Grading scheme: ECTS.</p>	50 %	30 %	20 %
